Technical Service Manager

*A Global Technology Services Provider
Location: Pickering, ON
Industry: Technology Services for Finance Industry*

Challenge

The global technology services provider delivers one of the industry's broadest portfolios of information technology, applications and business process outsourcing services to clients in the manufacturing; financial services; healthcare; communications, media and entertainment; energy; transportation; and consumer and retail industries; and to governments around the world. The business demands quick response and the provision of time sensitive resources. Manpower was asked to assist on being extremely flexible to meet these demands in order to make the business a success.

Solution

Manpower immediately began work to learn the unique nature of their business, to understand these demands so that timely resources could be provided. We designed a national end-to-end staffing program that focused on proactive recruitment and thorough qualification of the candidates. A customized orientation guide was produced in order to train each candidate prior to assignment on the client's unique policies and procedures.

Results

Associates arrived on-site, ready to work upon arrival, already having a sense of the work environment and operating procedures to be followed while on assignment. Manpower has been a valuable business partner and a dependable source of not only temporary associates, but also permanent staff. Ass assigned staff were responsible with the sensitive information, and diligent in their work ethic.

Across the nation, Manpower is helping technology services companies maintain their productivity. Our targeted recruiting approach, customized on-boarding and client site management translate into highly qualified associates and less turnover for our clients. We partner to provide both workforce flexibility and workforce expansion, whenever it's needed.
